# COMPANY PHILOSOPHY

## SHARED VALUES

We have and always will inculcate our shared values in all our employees. Hong Hock Global Pte Ltd.'s ("HHG") culture is governed by fourstrong values that have brought us to where we are today and will continue to propel us into the future.

### Professionalism

*Ownership, Precision and Respect.*

At HHG, we believe that the best work comes from within, thus we believe in empowering our employees to take ownership of their work. We build trust by executing projects with precision and respecting our customer's needs.

### People

*Our most valuable assets.*

Our utmost priority is providing a safe working environment to our employees.

This is ensured through safety courses and inculcating a safety-conscious in all people.

At HHG, we also build lifelong connections and dynamic teams by creating a safe workplace and supporting continuous learning.

### Integrity

*Honesty is our best policy.*

We always take accountability and responsibility for our words and actions.

Transparency will be shown in all aspect of our work from start to finish.

### Excellence

*Work hard. Work smart.*

At HHG, we believe that nothing can be achieved without hard work and ingenuity.

We consistently focus on quality production and are always seeking cutting edge solutions to provide our customers with the best-in-class deliverables. We are also actively promoting an innovative and progressive ecosystem as we believe this will elevate our services to our customers and the industry.

## OUR VISION

To be the region's leading enterprise that provides a safe and secure environment to the community through high quality infrastructure and services.

## MISSION STATEMENT

We provide superior, timely, and bespoke infrastructure as well as leading edge solutions to our customers whilst supporting our communities and preserving the environment. We also strive to be at the forefront of the industry by promoting and supporting continuous improvements to our production and services.

HONG HOCK GLOBAL PTE LTD

# ABOUT US

HONG HOCK GLOBAL PTE LTD ("HHG") was established in 2013. Since then, we have achieved significant milestones and have grown into a strong independent company. Our core competencies are in laying of road works and road lining divider. We are constantly working towards the next milestone by collaborating with companies with novel technologies. Currently, we employ cutting edge technology into our pipe laying works and pipe repairs.

We have completed projects that are issued by the public utilities board (PUB) of Singapore (a government statutory board) and building and construction authority of Singapore (BCA). Our dedicated workforce is always commitment to excellence and our customer-oriented mindset have earned us our reputation in the industry. Our engineers and managers, with more than 10 years of experience in the water industry, are certified by BCA with specialization in varies piping works and civil works. Our site specialists are all trained from the ground up and understand every aspect of the work requirements and procedures. As a result, we have many regular customers, who value our services, including Authorities and many Multi-National Companies like:

- **PUB (Singapore Water Agency)**
- **SAMWOH**
- **Ed. Zublin Ag**

## INTERNATIONAL BUSINESS COLLABORATION

Hong Hock Global has the opportunity to collaborate with Hydra-Stop, largest insertion valve and line stop manufacturer in the world based in Burr Ridge, Illinois. For over 35 years, Hydra-Stop has provided solutions for water control to thousands of municipalities and contractors around the world. Hydra-Stop provides solutions for the 20 – 50 percent of valves in municipal systems that no longer operate.

Currently, we have been working with one of the most advanced water technology company in the industry, Hydra-Stop. We are one of the main contractors in Singapore specialized in using this technology in the field. This desire to always improve, and seek better processes and products contributed to our success over the years. This has also helped in building the strong and trustworthy relationships with our customers.

## Equipment (Hydra-Stop Technology)

The photographs are the hydra-stop equipment used during repair of pipes. This equipment has various features including:

Under-pressure water main assessment

Simple system access utilizing the Insta-Valve 250 Patriot™ Insertion Valve

Camera head with built in hydrophone and dual frequency Sonde (works with any 5 12 MHz locating device)

Control station and software with built-in recording and exporting options

Rated working pressure 230 psi

Up to 100m of travel, both upstream and downstream

## INCORPORATE WITH LOCAL & OVERSEAS SUPPLIERS

# CURRENT PROJECTS

CLIENT	PROJECTS	YEAR OF COMPLETION
PUB	Replacement of Water Mains for Network Renewal Division Package 5	2026
PUB	Supply and Installation of Water Connection Works in West Division Zone W1	2025
PUB	CR07- Watermain repairs and other works for Network (West)	2024
PUB	CR07- Watermain repairs and other works for Network (East)	2024
PUB	CR07 - Supply and Laying of PUB Newwater/Water Mains for the Eastern and Western Zones	2023
SING & SAN CONSTRUCTION PTE LTD	CR07 - Replacement of Watermains for Network Renewal Division	2023
OLINER	Operations support and maintenance of transmission pipeline and installations at water supply (Network) department	2023
PUB	CR07 - Repairs and other contract work for Network services (West) Division	2023

# COMPLETED PROJECTS

CLIENT	PROJECTS	YEAR OF COMPLETION
